## DETAILED ACTION

### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with Ms. Christine Beninati on 11/3/2006.

The application has been amended as follows:

**Claim 1:**

line 1, after "cleaning" insert –an oil scavenge tube of—

*b6  
11/3/06*  
line 1 delete "component"

lines 2, 7, and 23 , delete "blockage", and insert –debris—

line 22, after "tube;" insert –and—

**Claim 6:** line 1, delete "component" and insert –oil scavenge tube—

**Cancel claims 13-14.**

3. The following is an examiner's statement of reasons for allowance: The prior art fails to teach a method of cleaning an oil scavenge tube of a gas turbine engine using the claimed process steps, wherein the gas turbine engine comprises a fan, compressor, combustion chamber, and a turbine including an annular rear turbine frame supporting a bearing which rotatably supports an aft end of a shaft, the engine including an oil scavenge tube of the turbine rear

frame. The prior art of record is directed to cleaning internal combustion engines.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Widlansky et al. are relied upon to teach general components of a gas turbine engine including a shaft, bearing assembly and compressor. Widlansky fails to teach an oil scavenge tube and/or the method of cleaning an oil scavenge tube.
